

NAKUSP ROD & GUN CLUB

The Nakusp Rod and Gun Club is a Non-profit society open to membership by anyone wishing to share in maintaining and preserving our rights to hunt and fish in the Province of British Columbia.

We are a part of the Regional group called The West Kootenay Outdoorsman which in turn is part of the larger Provincial group called The British Columbia Wildlife Federation which represents the interests of all outdoorsmen in the Province. Both of these organizations also help promote the wise use of our natural resources within the boundaries of the Provincial Hunting and Fishing Regulations.

Locally our most obvious activity is the presence and maintenance of The Nakusp Rod & Gun Club Rifle and Archery Range. This facility is subject to Provincial annual inspection to ensure that a safe firearms use facility is in place for members and their guests. In addition, our club provides a liaison service between the sportsmen of the area and the Ministry Of Natural Resource Operations, in particular the Fish , Wildlife and Habitat Section. We may also be involved with wildlife related projects, fishing derbies, and annual award competitions based on membership support.

More information regarding annual membership fees, meeting dates and times, meeting minutes and so on is available on the Club website which can be accessed at:
